

BROW & WAXING TREATMENTS

HD BROWS

HD Brows is a bespoke eyebrow treatment that is totally tailored to you – not a brow stencil in sight. It’s so much more than a standard eyebrow tint and wax; we combine our unique design formula with custom-blended colour and hair removal and application for brows that suit you. We work with you to create your perfect look, whether your wish to tame bushy brows or regrow overplucked eyebrows. The effects of the treatment usually last around 4-6 weeks, however this can vary depending on your hair growth. After your first few treatments we will be able to recommend how often you should be having the treatment done.

WAXING

For our waxing treatments we use strip and hot wax depending on what you require. The main difference between hot wax and strip wax is that strip wax involves the use of disposable strips which intend to remove the hair once pulled off. Whereas the hot wax treatment is applied onto the area of choice, left to harden and removed once it has set. Hot wax is for more sensitive areas, such as under arms, face and bikini line, and strip wax is for larger areas such as legs, arms and back.

NAIL TREATMENTS

MANICURE

A therapeutic service that involves nail care, cutting, filing, polish and shaping to the fingers. We will also push back and tidy your cuticles before giving you that pretty nail polish and massage.

PEDICURE

A pedicure is a treatment on your feet. It involves cutting, trimming and shaping your toenails, tending to your cuticles, exfoliating, hydrating and massaging your feet, and, if desired, painting your toenails.

LUXURY MANICURE AND PEDICURE

A luxurious treatment including all the above followed by a hand/foot mask and a massage.

BUILDER GEL

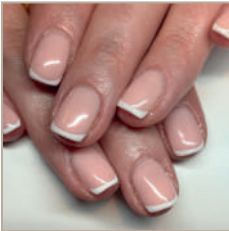

Builder gel is a type of gel polish with a thick viscosity that is used to create length, thickness and strength on your natural nails or nail enhancements (i.e nails tips). Builder gel has 3-4 weeks longevity.

HARD GEL

Hard gel is a tough, durable gel polish used in nail enhancements. Applied in thin layers and cured under a LED lamp, it creates a strong, glossy finish that resists chips and lasts for weeks. It’s popular for overlays, extensions, and sculpted nails because it holds shape well and can be filed or shaped after curing, giving a long-lasting, salon-quality look.

GEL POLISH

This is a gel polish that will last for 28 days, it isn’t as sturdy as builder gel. Gel Polish has 2-3 weeks longevity.

SEMI-PERMANENT MAKE-UP

Rather than having to fill in your brows every day, you can wake up with brows that are defined and are beautifully shaped. A pigment is inserted into the top layer of your skin using needle technology, giving you brows that can last up to 18 months.

This treatment starts from £250.00 - Please book a consultation with Lucy to enquire for more information about this service. Semi-permanent eyeliner is a form of an eyeliner tattoo. A fine or thicker line through the top or bottom lash line and the eyelid that gives the appearance of more lashes and defines the eyes. If you wish, a thicker line can be applied to give a stronger effect.

PATCH TEST REQUIRED

A patch test is required 72 hours before any new brow treatment can be carried out.
